

CONCRETE SLAB (OH-N-203-CAD)

**** DRAWING INFORMATION ****

1. *This drawing has two (2) layout tabs. One is for either a Type S-1 or Type S-2 slab. The other is for a Type S-3 slab. Refer to the NRCS-Ohio Design and Construction Specification "Concrete" for the requirements for each type of slab.*
2. *Fill in the type of slab being used for the Type S-1/S-2 sheet. If a S-2 slab is used, also fill in the steel spacing in the table.*
3. *Once the design is completed, write in the information for the Title Block and any other information required in the tables for each type of slab. If using the AutoCAD drawing file, type in the information and save your drawing to a different name.*
4. *This standard was redrawn in March 2015 by Jim Rose, CET. Title block information was removed for posting to the web site in June 2015.*
